

PILOT SETUP RECORD

The exact tool and account for this cohort

Complete with the school host before the lab. This is a local decision record, not a universal platform approval.

School or program
Pilot date
Exact AI product
Staff account type and login path
School host and escalation contact

Feature decisions

Feature	Allowed?	School note
Pasting practice text	■ Yes ■ No ■ Ask	
Uploading files	■ Yes ■ No ■ Ask	
Web browsing or search	■ Yes ■ No ■ Ask	
Memory or chat history	■ Yes ■ No ■ Ask	
Sharing assistants	■ Yes ■ No ■ Ask	
Connectors or external apps	■ Yes ■ No ■ Ask	
Saving participant work	■ Yes ■ No ■ Ask	
MINIMUM FIRST-LAB SETUP The first lab can run without uploads, browsing, connectors, or sharing. Teachers can paste practice text and save instructions.		

Test before the session

- Participant login works on the school network.
- The five-part setup can be saved or copied.
- Practice text can be entered without unapproved features.
- The facilitator can demonstrate in the same account type.
- The school host knows how participants request help.
