

What to bring to the Teacher Time Back Lab

You do not need to know AI. Bring one repeated task and a working login. Andrew shows the finished result before you build anything.

Bring

- ❑ A laptop and charger
- ❑ A working login to the exact AI tool and staff account your school named
- ❑ One recurring task you personally perform
- ❑ Optional rough notes or a blank format you created or are permitted to reuse

Do not bring or upload

- Student work, grades, rosters, IDs, initials, group labels, or case notes
- Family messages, staff records, personnel matters, or confidential school documents
- Publisher curriculum or colleague-created resources unless permitted
- Passwords or account access for Andrew

NO TASK YET?

Choose lesson setup from rough notes, directions formatter, or meeting agenda and follow-up organizer.

WHAT YOU LEAVE WITH

One saved five-part setup, one practice result, one revision, a review card, and a two-week plan.
